A I R S P E E D

A new concept in mobile luxury hospitality.

Feel at home. Wherever you arrive.

Close to the action.

A place of your own.

A private base for the places you love.

Airspeed brings an open lounge, a kitchen and a private suite together in one considered space. Gather with guests. Prepare for the day. Step away when you need a moment.

Luxury that feels easy to live with.

Your place in the paddock.

A private base for drivers, owners and guests. Close to the race weekend, with room to meet, host and recharge.

Before the first tee. After the round.

A welcoming place for players, families and guests to share lunch, review the day or enjoy a quiet moment.

At home between classes.

Space for riders, owners and families to gather, prepare and settle into the rhythm of the showgrounds.

Before the show. After the applause.

A private backstage setting for an artist and their team, from the first quiet moment to the end of the evening.

Let the evening find its rhythm.

Warm light. Good company. Time to unwind. An intimate setting for conversation, a quiet rehearsal or a moment together after the show.

Room for the people who matter.

An open meeting room flows into the kitchen. Comfortable seating, generous windows and a presentation screen make space for both conversation and purpose.

Come to the kitchen table.

Coffee before the day begins. Lunch with the team. An integrated galley and a kitchen table designed around four adults bring the simple pleasures of hosting close at hand.

Considered in every light.

Soft oak. Ivory textiles. Pale stone. A restrained contrast of navy and polished metal.

Warm lighting brings out the textures as day becomes evening. The palette shown is conceptual, with room to make the finishes your own.

A rhythm of your own.

Beyond the shared spaces, a private bedroom offers a place to rest and reset. Familiar comforts travel with you, from event weekends to longer stays.

A moment to yourself.

A private bathroom provides space to get ready before the next occasion.

The shower, vanity and concealed laundry are integrated into the private suite, with materials that carry through from the living spaces.

An established platform. Your own expression.

THE EXTERIOR

The body, slideout arrangement and overall proportions provide the foundation. Full-body gloss paint offers a clean, personal expression.

THE INTERIOR

The illustrated palette is a starting point. Explore upholstery, veneers, surfaces and cabinetry details within the specified floorplan and engineering requirements.

Start with how you will use Airspeed. Then choose the materials and details that feel right for you.

One Airspeed. Many ways to make it yours.

PLATFORM	53-foot nominal transporter body
LIVING	Open meeting room, galley and kitchen table
PRIVATE SUITE	Bedroom, bathroom and concealed laundry
EXTERIOR	Full-body gloss paint, polished wheels and spread axles
ARRIVAL	Deployed front landing and removable enclosure panels
INTERIOR	Conceptual palette with scope for bespoke selections

Airspeed is presented as a product concept. The exterior platform is further established; interior materials and finishes are illustrative. Final specifications, equipment and deployment remain subject to engineering confirmation. Venue access, towing, parking and utilities are planned for each destination. Paint colors shown are illustrative.
